EC Rate: The B.A.R – Best Available Rate with a special discount of 8% on it.
We will offer you the Best rate of the day.

Best Available Rate is based on daily flexible pricing. Whereas previously an account received a flat annual rate which was consistent regardless of the day, of the week or of the season; the Best Available Rate is a rate that fluctuates according to supply and demand.

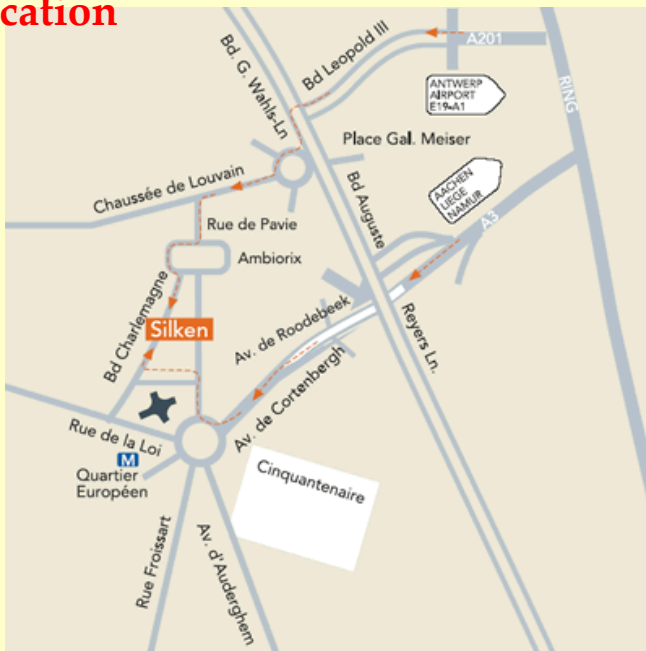

The advantage of the BAR:

1. Firstly you will always have last room availability which is important for you. Now, we often have to close out certain rate segments as no longer being available and you have no availability with your rate.

With the BAR, we no longer close segments and you have availability till the last room is sold without having to pay a higher rate.

2. Secondly the rate is transparent, the rate is always visible and you can see the lowest rate available for each arrival date.
3. The earlier you book, the lower rate will be.
